

1sfp interface LC

Overview

The LC (Lucent Connector) is the dominant interface for modern networking. 25 mm ferrule, which is half the size of the older SC connector. High Density: Because of its small footprint, manufacturers can fit 48 or even 96 LC ports on a single 1U switch. Moxa's small form-factor pluggable transceiver (SFP) Ethernet fiber modules for Gigabit Ethernet provide coverage across a wide range of communication distances., which were issued prior to the conversion under the name Pepperl+Fuchs GmbH or Pepperl+Fuchs AG, also apply to Pepperl+Fuchs SE. Optical and copper models can be used on a wide variety of Cisco. High-Performance LC SFP Module: Connect a network switch, server, NIC, media converter with an SFP port to a Gigabit fiber network using this 1000BASE-SX SFP transceiver.
