

72-core direct-fusion fiber distribution box

Overview

1:8 Outdoor FTTH Fiber Optic Splitter Box, 72 Cores Fusion Splice Enclosure PP+GF This splice closure integrates distribution and splitting in one, can realize the direct fusion and branching of the optical cable, and is suitable for the wiring connection in the optical. 1:8 Outdoor FTTH Fiber Optic Splitter Box, 72 Cores Fusion Splice Enclosure PP+GF This splice closure integrates distribution and splitting in one, can realize the direct fusion and branching of the optical cable, and is suitable for the wiring connection in the optical. Fiber Management Tray also called ODF Distribution Box, Integrated Splicing and Distribution ODF. It is mainly used for cable inlet, grounding and fixing and the splicing between the terminal end and pigtail. As the degree of network integration becomes higher. The ODF Fiber Optic Distribution Frame FC/APC-72 core is a high-performance optical fiber management solution designed for telecommunications, FTTH deployments, and optical transmission systems. The following is a detailed description of the ODF optical fiber distribution panel: Optical cable fixation and.
