

Anping power distribution box guardrail

Overview

It is welded with high-quality low-carbon steel wire and has reinforced edge wire design on both sides. Anping Hongli metal products Co. specializes in production workshop isolation network, building mesh, fence net, guardrail, highway fence and isolation fence. is located in the famous "hometown of wire mesh" in China - Anping. The diameter of the. Highway isolation fences are mainly used as safety protection nets for highways and highways, also known as peach shaped column guardrails, bilateral guardrails, double circle guardrails, Dutch net, wave net, triangular folded edge guardrail net, etc. This type is the same as railway isolation. Guard rail or guardrail, sometimes referred to as guide rail or railing, is a system designed to keep people or vehicles from (in most cases unintentionally) straying into dangerous or off-limits areas.
