

# Argentina Wiring Distribution Box

## Overview

Argentina power strips and PDU power distribution units for surface mount, rack mount and general purpose applications. Quality Argentina power strips, in stock, for standard duty applications. Automatic Transfer Switch (ATS) Control: Ensures seamless power transfer between primary and backup sources, maintaining uninterrupted power supply for critical systems. Power Distribution via Busbar: Designed to handle high-current loads (up to 630A) and distribute electrical power efficiently. Edenor is the largest electricity distributor in Argentina, providing services to over 3 million customers and operating an extensive electricity supply system with a significant capacity and a well-developed network for medium and low voltage distribution. The enclosure is made of bent steel plates, featuring a compact structure, easy maintenance, and flexible circuit scheme combinations. Besides air circuit breakers and fuses for circuit protection, the Anixter is your source for Power Distribution products.
