

Australia Interconnected Data Center

Overview

The top providers in Australia are Canberra Data Centres (CDC) (19 sites) and AirTrunk with 7 facilities. The most popular facilities are Equinix Sydney SY1 and SY2 and NEXTDC Melbourne M1. Simplify colocation in AI-ready Australia data centers with advanced cooling, interconnection, secure cloud connectivity and disaster recovery solutions—all backed by 24x7 security, technical support and amenities like conference rooms, work kiosks, loaner tools and EV charging stations. Do you need to procure colocation, cloud, connectivity or other. As one of Australia's leading digital infrastructure providers, Telstra InfraCo brings you a combination of certified engineering expertise, high-speed infrastructure, and state-of-the-art Australian colocation data centres that are optimised for next generation cloud and AI workloads. Data Centres Australia was officially launched at an event hosted by Deloitte Australia in Sydney, Friday 28 November, 2025.
