

Automatic Fiber Optic Cable Attachment

Overview

The machine is a hand-held free-to-height cable quick-attachment tool with internal components such as controllers that automatically complete all steps of cable tying. It can be widely. By combining AlgorithmicControl™ with the LC/MT/SC Genius™ Precision ConnectorMount™, the High Precision Benchtop Robot, the SmartReload™ Station and the Fiber Optic Connector SmartApp™, Fishman® has created a complete benchtop automation system that assures each fiber optic connector is.

Efficient Cable Tying: This automatic cable tying machine is designed for efficient cable management, allowing users to tie cables with a bundling range of 8-58mm in a short time of about 0.6 seconds, making it ideal for various applications.

Durable Construction: With a high rated voltage of 12.

Full automation: automatic completion of the whole process from raw.

Automatic fiber optic cut machine Description: Comptroller of the production of fiber optic cable for fiber jumper (or cable), and cut off the equipment, winding, and printing tags. It can be different specifications of the fiber optic cable cut and wound into the desired length and circle.
