

British optical transmitter 1G

Overview

The SO-SFP-1G-O-Cxx-E is an SFP form-factor transceiver for OSC (Optical Supervisory Channel) and OTDR (Optical Time Domain Reflectometer) applications. Upon disruption of the data link, or FS gigabit ethernet transceiver solutions provide fibre or copper options including 1000BASE-SX, 1000BASE-LX/LH, 1000BASE-T etc., from 100m to 160km, for 1G switches, routers, servers, NICs and other transmission equipment. Cube Technology Trading's 1G transceiver series offers a diverse portfolio to meet the needs of various network applications, including SONET/SDH, xWDM, Ethernet, Metro Networks, Wireless Networks, and Transmission networks. These transceivers support data rates ranging from 125 Mbps to 4.25 Gbps. Finisar 1G SFP Transceiver Module not only delivers high-performance data transmission over a distance of up to 10km, designed to be highly versatile and compatible with a wide range of communication standards, protocols, and frequency bands, making it a truly Universal Transceiver.
