

CIF price for long-distance optical cable G 657A1

LoRa handheld portable base station

Overview

657A1 (common bend-insensitive fiber for FTTH drops): Now trading at \$22/km, up from \$12–14/km in mid-2025 (an increase of approximately 80%). 657A2 has reached \$35 per kilometer — with many suppliers warning that prices could climb even higher in the coming months if demand pressure continues. This is not a typical cyclical fluctuation. The current. The bending radius for G. This is because when the optical fiber is. Need pricing for this product?

Get a price quote for Standard Singlemode Fiber - ITU-T G. Totally Dielectric Optical Cable recommended for indoor building areas, especially on vertical backbones on Fiber To The Apartment (FTTA) systems for voice, data and image traffic. Internal facilities in conduit and conduit infrastructure. 5 billion by 2027 (CRU) 5G fronthaul networks driving demand for bend-insensitive fibers G.
