

Cable tray connection bolts g

Overview

The bolts have a mushroom head and come with a serrated flange nut. They can be used for joining cable tray sections easily without the need for washers. Available in sizes from M6 x 12mm up to M6 x 50mm. maintain spacing or to keep cables in place when the tray is ect the minimum bend ra-dius for cables as they exit the bottom of the cable tray. A rung spacing of 6 to 9 inches (150 to 230 mm) is preferable when the cable tray cont d for instrumentation and control applications that require. The cable support lengths and fittings can basically be designed as cable trays, cable ladders or mesh cable trays, in which cables are routed. The fixed washer to the flange nut prevents it from falling into the socket driver. This includes Pozi Countersunk Head Screws. Specifically designed to provide a rapid and secure fixing when erecting cable trays. Can't find what you're looking for?
