

Can hot strippers be used to peel fiber

Overview

Fiber optical stripping can be done using a special stripping and preparation unit that uses hot sulfuric acid or a controlled flow of hot air to remove the coating. In some applications, “window strip” operations are required, where a short section of coating is. Fiber thermal strippers are essential tools used in the field of fiber optics for removing the protective coatings from optical fibers. These coatings, which are typically made of polymer materials, need to be carefully removed before splicing or terminating the fiber to ensure optimal performance. Also known as optical fiber cable strippers, they hold cable within a slot, squeeze their jaws to press through the coating, and slide the coating off the end of the cable. Our selection offers powerful, robust devices for single fibers and. The FIS Thermal Stripper makes stripping 900µm or 250µm fibers easy and reduces the chances of breaking a fiber compared to traditional mechanical methods. It's a fast, easy solution for re. more The FIS. 3SAE Technologies designs and manufactures a wide range of high performance fiber optic stripping tools for optical fiber coating removal, providing the most advanced line of high strength thermal mechanical strippers, non-contact high strength fiber optic strippers and the industry's only diameter.

HS-12 Thermal Stripper

Designed to strip the jacket of single fiber and ribbon cable up to 12 fibers, it offers extreme convenience under any tough environment. Benefits include fast heating

Oct 22, 2025

Fiber U Lesson Plan: Basic Skills Lab, Remote

Exercise 1: Use kevlar scissors to cut the cable at the middle. We'll splice the two pieces back together in an exercise and put new connectors on the bare ends in

Jan 13, 2026

25 types Fiber Optic Strippers for Various Cable Jackets

When stripping fiber optic cable, a professional-quality stripping tool makes your job easier by providing a clean cut. Different fiber strippers are designed to remove

Jan 09, 2026

Fiber Optic Thermal Strippers | FiberOptic Resale Corp

Fiber Optic Thermal Strippers We offer thermal strippers from Sumitomo, INNO Instrument, Fitel and Jonard Industries. These easy-to-use thermal strippers are

Feb 16, 2026

Stripping (fiber)

Fiber optical stripping can be done using a special stripping and preparation unit that uses hot sulfuric acid or a controlled flow of hot air to remove the coating.

Oct 28, 2025

Fiber Strippers

Fiber strippers are precision tools that reliably and cleanly remove a defined length of coating (often 30–40 mm) from a fiber end so that the bare glass is exposed
