

Certified Standalone Switch 200G

Overview

Featuring management interfaces, including an industry-standard CLI, and Web-based UI, the DIS-200G Serie is easy to manage and provides the controls to help protect and shape your network. Designed with 10 x 10/100/1000BaseT ports and 2 x SFP ports to suit a range of devices and. FS 100/200G PicOS® switches offer high speeds and port densities to meet the network deployment requirements of various scenarios, including core layer applications, and the evolving requirements of enterprise networks. The DIS-200G Series switches are housed in a highly resistant IP30-rated metal casing to protect them from harsh environmental conditions. The high electromagnetic compatibility (EMC) protects the DIS-200G Series from unwanted effects when operating in environments with strong electromagnetic. The DIS-200G Series Layer 2 Gigabit Industrial Smart Managed Switches are equipped with 8 PoE-capable 10/100/1000BASE-T ports (PoE models), 2 10/100/1000BASE-T ports, and 2 SFP ports.
