

Core6 multimode fiber

Overview

TX Multimode Fiber Optic Cable GYXTW6 Core is a high-quality optical cable designed to support efficient data transmission in multimode fiber networks. Engineered with 6 cores, this cable ensures excellent bandwidth and reliable connectivity for short to medium-distance communication. 6 Fiber Multimode Fiber Optic Cables are available at Mouser Electronics. Imm (main cord) Material Stainless Steel Color Silvery White UL94 V-0 (*Burning stops within 10 seconds on a vertical specimen, no drips of flaming particles.) *Exact product code is subject to the cable length. B2B buyers should confirm application, quantity, quality standard, packaging. TMT GLOBAL provides high-strength optical fiber cables for use in various industrial, indoor, and outdoor applications. The interior uses DuPont Kevlar and metal woven. In the ever-evolving landscape of telecommunications, the 6-core fiber optic cable has emerged as a crucial player, enabling high-speed data transmission and supporting the growing demand for bandwidth-intensive applications.
