

Cuba Fireproof Cable Tray Specifications

Overview

Specs Connector Type: Type: 7-way RV-style blade (trailer end) Cable Lengths: Trailer lead: 72" long Functionality: Supports: taillights, brake lights, turn signals, electric brakes, reverse, battery charge, auxiliary power LEDs: light up to confirm active signals Construction: . Specs Connector Type: Type: 7-way RV-style blade (trailer end) Cable Lengths: Trailer lead: 72" long Functionality: Supports: taillights, brake lights, turn signals, electric brakes, reverse, battery charge, auxiliary power LEDs: light up to confirm active signals Construction: . Cablofil cable tray is the preferred choice for the cable containment of low and high voltage electric cables where fire resistance is crucial - this includes cable basket tray systems for Prysmian FP (FP400 and FP600) and Draka Firetuf type cables. Cablofil fire resistant and fire proof cable. us-trations without notice. All illustrations, descriptions and technical information included in this document are provided as indications and can cable trays are equivalent. The mechanical and electrical characteristics, tests, certifications, overall quality management, recommendations mentioned. FireMaster® products insulate cable trays carrying instrument control cables to ensure that the cables can operate long enough to allow process shut down during fires. The FireMaster® cable tray wrap consists of. Fire safety and fire resistance are vital part of responsible electrical designing and installation. Meka Pro has tested and continues to test its products and cable management systems' fire resistance with the cables installed and connected according to the temperature curve in the EN 1363-1. ucts; however, as an alternative DIN 4102-12 can be used. These systems prevent fire and smoke from spreading through open cable pathways, maintaining circuit integrity and code.
