

Dimensions of Vertical Charging Pile Distribution Box

Overview

Total length of gun line: 5/10/15/20m, which can be customized. Packing size: length 475mm x width 330mm x height 260mm. Product material: high flame retardant plastic with flame retardant grade UL94V-0. Charles Endirect Limited (CEL) is a family-owned organisation and a leading designer and manufacturer of electrical components and equipment, for use in the streetlighting, highway, EV supply and construction industries. CEL have been delivering products to UK and international markets since 1984. BYD's charging piles are typically divided into two types: one is the wall-mounted charging box for home use, and the other is the vertical fast-charging pile for public charging stations. Home wall-mounted charging box: approximately 825mm x 410mm x 1400mm (L x W x H) in size, weighing. Goode Electric is an enterprise specializing in the production, manufacturing and sales of sheet metal parts such as stainless steel and iron distribution boxes and distribution cabinets. Our company has a history of more than 20 years and has accumulated rich experience in the sheet metal industry. This specification covers technical requirements of design, manufacture, testing at manufacturer's works, packing, forwarding, supply and unloading at store/site and performance of pillar box with all accessories for trouble free and efficient operation. Its core innovation lies in the integration of an electrical fire-proof current-limiting protector, which solves industry pain points such as delayed. Charging pile installation and main matters - Bluesky is a provider of integrated energy refueling solutions for petrol, natural gas, hydrogen, and EV charging. The installation of charging piles is very important. Below, I will introduce to you what you should pay attention to when installing.
