

Dominic cable tray sealing

Overview

This general-purpose sealant works on a variety of materials and in different environmental conditions. Features: Creates a waterproof seal at seams between joined parts Adheres to rubber-like roofing materials, aluminum, galvanized metal, plastic, vinyl, fiberglass, and wood. CSD FIRSTO® firestops are designed to seal multi-cable and cable tray penetrations of fire-rated walls or floors. FIRSTO® utilizes a metal frame that encompasses the entire cable run, cable tray with cable or bus duct at the point of penetration. Working in inaccessible openings is often cumbersome. A cross-EU pre-cover check for firestopping service penetrations through fire-separating walls, floors, and shafts before they are closed by linings, screeds, or shaft boards. New fireproof plugging materials have made many improvements on the basis of traditional materials, such as modular cable/pipe sealing systems, which have significant advantages in fireproof performance, environmental protection, construction convenience and comprehensive cost, and gradually.
