

Dual power supply sdy distribution box

Overview

The SDY series dual power supply box is suitable for terminal dual-loop power supply systems with AC 50Hz, rated voltage 220V/380V, and rated current 60A-400A. It can realize automatic switching between main and standby power sources to ensure power supply reliability. High reliability: The dual power distribution cabinet should have high reliability and can achieve seamless power. Company Introduction: Xi'an Zhongji Hi-Low Voltage Electric Equipment Co. 4-35KV high-low voltage full set electric equipments and cable trays, together with electric engineering construction, city road lighting. PDSDY type low voltage double power cabinet is suitable for hotels, hospitals, schools, industrial and mining enterprises, Keywords: high and low voltage equipment, distribution system design, automation electrical products PDSDY type low voltage double power cabinet is suitable for hotels.
