

Ecuadorian Coherent Optical Module 200G

Overview

This CFP2 coherent optical module supports wavelengths from 1528 to 1567 nm and has a transmission capacity of up to 200 Gbps. With EDFA for transmission, point-to-point can reach 1000km. C-band tunable, Multi-rate, SD-FEC, 0°C to 70°C, LC receptacle. On the host side, the module can accommodate a variety of signal types including 100GE, 200GE, 400GE, OTU4 and OTUCn (FlexO). On the line side the module supports 100G, 200G, 300G, and 400G interfaces with different modulation formats. The CFP2-DCO-200G-D is CFP2 form factor coherent pluggable module compliant to the CFP MSA CFP2 Hardware Specification, based on DP-mQAM modulation, polarization diversity coherent Intradyne detection and advanced electronic link equalization. The module can accommodate. The 200G Coherent CFP2 optical module, integrating coherent detection and high-performance DSP, enables higher spectral efficiency over limited fiber resources, making it a proven solution for metro, backbone, and data center interconnect (DCI) networks. The module also features DOM monitoring, allowing wavelength tuning. It was born to configure high-capacity.
