

Electric heating tape distribution box

Overview

The distribution box, as the "control core" of the electric heating cable system, enables zoned temperature control and data recording, providing early warning of freezing and blockage risks, and ensuring stable heating of long-distance pipelines. The innovative junction box ELAK-Ex-R with mounting bracket (Ex-it) is suitable for use in potentially explosive. The Eltherm electronic temperature controller Ex-TC has a wide control range of 0 °C up to + 450 °C and an ambient. Power distribution panels boards for heat tracing in hazardous areas. The Eltherm ELAK-Ex-R is an ATEX certified junction box engineered for use in hazardous areas where safety, reliability, and ease of installation are paramount. Versatile equipment manufactured by TEP Ex may be used for power connection, in-line and. Delvalle is a world-class manufacturer hazardous area Marshalling / Distribution Box for deployment in refineries and chemical plants and many other hazardous area applications and Marshalling Box for heat tracing. Zoned temperature control adapts to the temperature.
