

Explosion-proof centralized control distribution box

Overview

A series of control and distribution panels made from aluminum. Ex d and Ex tb certified for installation in explosion-hazardous areas. Suitable for use in gas group IIB+H 2 environments. Customizable configuration of operators, cable entry quantities and cable gland types as per. Atexdelvalle offers world-class explosion-protected solutions guaranteeing highest quality and performance with no compromise. In order to support you in a better way, we have worked to further optimize the 8150 series of local control stations. Their modular design allow them to be tailored to your specific range of applications and. Terminal boxes and junction boxes from Pepperl+Fuchs are designed to protect signal and power distribution networks in explosion-hazardous and challenging environments. Enclosure: 316 stainless steel. Equipped with a specialised hinge structure which can prevent damage to the flameproof joints when opening and closing the box; greatly.
