

FT-31 Fiber Optic Sensor

Overview

FT-31 - Through-Beam Optical Sensor 12. 402" (315mm) from Panasonic Industrial Automation Sales. View datasheets, pricing and availability from DigiKey now! Panasonic [FT-31], Threaded Type Fiber, Part number detail page. Detailed specification of is here. Panasonic Industrial Automation FT Thru-Beam Type Fiber Optic Sensors feature tough, high-quality fiber and a reduced risk of breaking and bending during installation in a thru-beam package type. Panasonic Semiconductor provides a wide range of products including microcontrollers, sensors, power management ICs, and other electronic components for various applications in the automotive. It is a standard fiber that is mounted using nuts. With the lens installable type, long distance sensing and microscopic object sensing are possible by installing a lens. Price may vary for registered customers. This email address is associated with more than one company.
