

Fiber Fiber Reel v1

Overview

This reel keeps optical fibers safe. The 250µm buffer protects each strand. It prevents kinks exceeding the 30mm minimum bend radius. The hub design prevents. The installation of the fiber optic disc should keep the outlet of the fiber optic disc as far away from the propeller as possible, but extra attention should be paid to the balance point of the aircraft's center of gravity. The barrel is coated with PE foam Do you have any questions?

We would be pleased to assist you. +49 (0) 5208 7004-0 Our quality management system has been ISO 9001-certified since 1997, and our environmental management. Fulfils the toughest specifications of harsh environment fiber optic systems in the world today. Cable drum made of sheet metal with auxiliary spool for storing and safely transporting all types of lines and wires. Our selection of Fiber Optic Cable Reels features only the best products available on the market that exemplify the characteristics necessary to enhance the installation process. These products are designed to be mobile, durable, and essential networking components.
