Is your answer profitable enough for you?

With us you can choose from three different capacity levels without compromising availability or quality of your production solution. Proactive services enhance your operations even further. Is material-efficiency important to you?

Our technologies guarantee excellent centricity and high stability of your products. State-of-the-art extruders and crossheads save material and minimize scrap in your production. Versatile raw materials, that suit to your production in quality, quantity and price, are applicable on several technologies. How sustainable are your products?

Purity and smoothness in layers are in the core of our solution development. With us, you can deliver more durable products that are easy to install and secure to use.
