

Fiber optic cable raw material prices rise

Overview

Industry reports indicate that average contract prices for standard single-mode bare fiber (G. Key indicators of today's market: Lead times have extended from 4-6 weeks to 12-20 weeks. For distributors, telecom. In the latest Optical Fibre and Cable Market Outlook, CRU examines the recent acceleration in fibre pricing and the tightening supply conditions emerging in early 2026. The price of bare fiber—the fundamental glass strand at the heart of every cable—has not just increased; it has surged unpredictably. 652D fiber, bend-insensitive G. 657A2 grades have all seen dramatic increases. The fiber optic industry is experiencing an unprecedented supply crunch. It is a. With the cost of raw materials climbing, many procurement managers are asking: Should we wait for prices to drop, or is a massive surge in order volume imminent?

At Shandong Yibo Optronics, with 13 years of manufacturing expertise, we analyze why the market is moving from "hesitation" to "urgent."
