

Finished Optical Cable Pulling Head

Overview

Beveled edge for easier pulls around corners. Use once and then recycle along with scrap wire. Available in 18 sizes (8 AWG through 1000 mcm) to be used in sets to accommodate jobs of different sizes. FFLTech has supplied some 'Pulling Heads', which are developments of the Soft Seal Pressure Cap for the Optima® Connector. The Pulling Heads use multiple clamp segments that are operated using a. Pulling head manufactured by PCS Italiana provides a strong and reliable solution for cable sealing and pulling during the delicate phases of submarine cable deployment and pulling on platform and also allows cable deployment and abandon on the seabed for a later completion of the activities. The. Power CSL offers a range of subsea cable /umbilical accessories required during the installation process.
