

Fireproof putty for professional cable trays

Overview

Fire Putty is a silicone-based, non-hardening fire putty for cable and pipe penetrations. In case of fire, a blockade of fire-resistant filler is formed that restricts the passage of smoke and fire. Fire Putty is listed in most environmental registers, which means that the product is not classified. The following charts give the number of 3M pillows needed to completely firestop an opening that cable tray passes through. UL Listed Systems Concrete Wall - C-AJ-4056 3 HR F-Rating, 3/4 HR T-Rating Gypsum. Whether you need to firestop outlet boxes or small cable penetrations, you will find the solution here – our quick to install putty pads, putty sticks and cable discs. Spend less time with long, complex firestop approvals and focus instead on completing projects more efficiently and confidently. Its soft, moldable formulation allows installers to quickly hand-form the putty around grouped cable bundles, creating a. Effective protection of cable systems around the world: our tried-and-tested FLAMMOTECT-A and DG-CR 0. 7 products are successfully used to protect cables in high-rise buildings, industrial buildings, and offshore facilities as well as in sensitive areas, such as hospitals, airports, production.
