

HDMI optical module single-mode

Overview

HDMI signal extender via single-mode optical fiber based on SC simplex connectors. Supports the transmission of the infrared signal from the remote control. AJA Streaming solutions include standalone and modular I/O devices, supporting the latest streaming software, codecs, formats, transport protocols and delivery platforms. openGear. The HDMI-OPTX-TX100A and HDMI-OPTX-RX100A transmitter and receiver devices are fiber extenders based on SDVoE technology and allow users to extend HDMI 2. The device has the ability of anti-interference, to ensure the stability of the signal. The LNK-MHRA4K Series 4K HDMI Fiber Extender are designed to support transmission of an. The HDMI Loop out feature allows you to connect multiple displays effortlessly. The media extender is more easy to use, carry and installation [Uncompressed Transmission] Fiber Converter transmits uncompressed HDMI signal, supports single/multi modes. HDMI digital audio and video extender at a maximum resolution of FullHD 1080p with IR (infrared) transmission.
