

High-efficiency silent fan network cabinet

Overview

Soundproof server rack cabinet designed to reduce equipment noise while maintaining proper airflow. If you're looking to create a serene and organized workspace, soundproof network cabinets are a smart investment. Whether you're setting up a home office or a data center, the right cabinet can make a difference. **QUIET OPERATION FOR OFFICES & HOME LABS:** Acoustic enclosure helps reduce perceived server noise up to 36%, making IT and network equipment suitable for quiet workspaces, studios, and home labs. **AUTOMATIC AIRFLOW & COOLING CONTROL:** Dual exhaust fans with built-in thermostat regulate internal temperature. Quiet Rack cabinets are soundproof enclosures using Active Cooling Efficiency that can be deployed where needed. As a driving force in the development of the first standard quiet rack test methodology we provide unbiased expert advice on which soundproof. Our vast selection of cabinets, thermal management, racks, enclosures for data centers, telecommunications equipment rooms, and enterprise cabling applications help optimize space, reduce energy consumption, and enhance network reliability. FlexFusion™ Cabinets XG offer a unique universal platform.
