

# High-speed tunnel cable trays

## Overview

Robust cable ladders and trays for industry, data centres, and tunnel construction – high load capacity, easy installation, and optimal cable management. For energy distribution and cable management in tunnelling and rail systems, EAE offers long-lasting, reliable and efficient solutions. Compact busbar systems provide efficient energy transmission in confined spaces, while corrosion-resistant cable trays enable organised and accessible cable. (glass reinforced polyester) cable trays. These solutions provide optimum safety, flexibility and excellent corrosion resistance for street lighting, signs, ventilation, etc. Whether specifying a major new project, refurbishing existing facilities or doing the engineering, procurement and construction (EPC) for your end user, with T&B Cabletray, ABB offers reliable solutions duly conforming to ASTM A123 & ISO 1461 : m. Specially designed Heavy Duty Wing Brackets that work in conjunction with Vantrunk's Intelok Radial Channel. When combined with Vantrunk's Speedway Cable Ladder, provides a multi-discipline Cable Management System suited to thrive in tunnel installations. Strong and durable – Made of hot-dip galvanized steel or stainless steel, suitable for indoor and outdoor applications.
