

How much does a single-mode fiber optic pigtail cost

Overview

Fiber Type and Count: Single-mode fiber typically costs \$0. On average, the cost can range from \$2.00 per foot for bulk cables, with variations for pre-terminated assemblies and armored cables, making it essential for high quality pre-terminated 900µm optical fiber pigtails with LC, SC, ST connectors for fiber splicing applications. Choose from single mode, multimode and 10G OM3/OM4 fibers. Commercial building installations with 100-200 network drops generally range from \$15,000 to \$30,000. Single-mode fiber costs less per foot than multimode fiber, but it requires more. We carry Fiber Optic fusion splicers, cleavers, OTDRs, cables, panels, laser sources, power meters, and many other Fiber Optic products for any project. The SC (Subscriber Connector) is widely known for its push-pull coupling mechanism, and the APC variant.
