

How to bend a large cable tray

Overview

You can buy a manufactured 90 degree bend or make one on a cable tray bending machine but in this video I show you how to make one using a metal bar. This involves a few essential steps to ensure a successful bending process. Since the jaws of the bolt cutter drags a layer of zinc across the cut end and forms a protective layer. When a wire cable tray is cut, the fact that a. How to bend 22. So basically from my middle line what size to mark either side to cut my lip away to create different angles. Never dealt with cable trays, but didn't you just cut your width in half?

See the notch?

That's going to be installed around something So once you're around that corner, do you go back to the full width or stay with the narrower tray?

I'd assume it attaches the the next piece that would flare out.
