

# How to connect an optical module to an SC port

## Overview

SC connector is too large for SFP module. BiDi), then a simplex female SC to male LC adapter would do (beware that such connection will cause higher stress to SFP module connector). This connector landscape reflects how modern SFP deployments prioritize port density and. Our ISP provides a fibre connection with an SC/APC socket. I guess we need an SC/APC to LC cable and a matching SFP+ module, but my knowledge in fibre networking is limited, and the most I can find about LC and. Is there a way to adapt a simplex SC connector to a duplex LC SFP transceiver?

SC connector is too large for SFP module. We are currently using optical convertors to convert 100 BaseFX SC Connector Fiber to 100 Base-TX in order to connect it via Cat5 cable to the. In fiber optic communications, the interface type of an optical module significantly impacts signal stability and reliability.
