

IIC explosion-proof round distribution box

Overview

The Ex d TBE series of enclosures is suitable for use in Gas Group IIC for the protection of electrical and control-system solutions, such as energy distribution, monitoring of processes and the complex control of machinery and other equipment. Moreover, we have a full range of control stations that can be equipped.

Pepperl+Fuchs provides a specialized portfolio of Ex d (flameproof) and Ex tb (dust protection by enclosure) certified terminal boxes and junction boxes engineered for reliable use in explosion-hazardous areas. These sturdy solutions are certified according to global standards such as ATEX, IECEx. Safely conduct, connect and distribute energy in hazardous areas with R. We offer bespoke, custom-made terminal boxes and terminal box combinations, as well as standard products with short delivery times. ♦ The explosion proof enclosures treated with anti-static coating and all fasteners are. * Used in chemical, oil refining, oil exploitation, offshore oil platforms, oil tankers, military and other hazardous areas; Suitable for cable distribution when installing electrical appliances and lamps and especially when installing electrical heat tracing systems and high-power electric heaters.
