

Industrial Heavy Metal Spectrometer

Overview

A Heavy Metal Spectrometer is a specialized analytical instrument used to detect and quantify heavy metals in various samples, such as water, soil, air, food, and industrial materials. The Belec Vario Lab impresses in metal analysis with its maximum. Developed for demanding spectral analyses, our metal analyzer Belec IN-SPECT delivers. Like its predecessors, this tenth-generation SPECTROMAXx (LMX10) furnishes outstanding speed. Users get ultrafast information, and can react rapidly to changing process conditions. It also provides drastically reduced cost of ownership — with lower consumables plus advanced diagnostics and easy. Our Mobile OES offer a rugged and reliable solution for on-site metal analysis. Our Rotating Disc Electrode Optical Emissions Spectrometers (RDE OES) determine elemental composition. These spectrometers provide quick results, allowing for real-time monitoring of heavy metal contamination in. Our global network of state-of-the-art food laboratories use Inductively Coupled Plasma, which can be coupled with a Mass Spectrometer (ICP-MS).

Jun 21, 2026

Visible and near-infrared reflectance spectroscopy—An alternative for ...

Quick and reliable access to heavy metal concentration data is crucial for soil monitoring and remediation. Visible and near-infrared reflectance spectroscopy, which is known as a

Feb 20, 2026

Recent advances in instrumental techniques for heavy metal ...

Heavy metals (HMs) are ubiquitous; they are found in soil, water, air, and all biological matrices. The toxicity, bioaccumulation potential, and deleterious effects of most of these metals on

Sep 25, 2025

LIBS Spectrometer for Alloy, Soil Heavy Metal & Industrial Elemental ...

Designed for demanding applications requiring real-time elemental analysis, the LIBS delivers high resolution, fast measurement, and multi-element detection capability. Ideal for alloy analysis,

Jul 25, 2025

Identification of heavy metal pollutants and their sources in farmland ...

In this study, heavy metals (HMs) in farmland were determined efficiently using high-precision X-ray fluorescence (HDXRF) spectrometer.

Feb 07, 2026

Industrial Spectrometer

Manufacturer of Industrial Spectrometer - Heavy Metal Analyzer, Oes Metals Analyzer offered by Vas Spectrometers Private Limited, Mumbai, Maharashtra.

Dec 28, 2025

XRF Spectrometers and Metal Analyzers | Worldoftest

This technology is widely used for metal analysis, alloy verification, precious metal testing, and RoHS compliance screening. Applications of XRF Spectrometers &

Oct 24, 2025

SPECTRO xSORT Handheld XRF Analyzer for Metal

The SPECTRO xSORT XHH04 handheld XRF gun is an elemental analyzer that's designed for high-throughput analysis of metals and alloys on the spot.

Jul 21, 2025

Portable XRF Metal Analyzer

Meet your metal analysis needs anywhere with the JITA19201 Handheld XRF Analyzer. This rugged 245x250x90mm portable spectrometer delivers fast,

May 25, 2026

Heavy Metal Analysis | SGS

We provide comprehensive analytical testing solutions for all heavy metals to help you minimize the risk of non-compliance to national and international standards.

Oct 03, 2025

Advances in Detection Technologies for Pesticide

Pesticide residues and heavy metals, originating from diverse sources such as agricultural practices and industrial activities, pose substantial

Nov 30, 2025

Portable XRF Spectrometer for soil heavy metal

The Portable XRF Spectrometer quickly measures heavy metals in soil with accurate, real-time results. It is compact, durable, and ideal for field use.

Jun 05, 2026

Energy Dispersive X-Ray Fluorescent Analysis of Soil in the ...

The soil of two agricultural sites near an industrial area was investigated for heavy metal pollution using energy dispersive X-ray fluorescence (EDXRF). The concentration values for 17

Jul 03, 2025

Metal analysis spectrometer

Find your metal analysis spectrometer easily amongst the 39 products from the leading brands (Thermo Fisher, Bruker, LECO, ...) on DirectIndustry, the industry

Mar 19, 2026

Analytical Instruments Used in Steel Manufacturing

Perform rapid, accurate elemental analysis of trace and alloying elements throughout the steel manufacturing process with Thermo Scientific OES metal analyzers and XRF analyzers. Our

Oct 12, 2025

Spectrometers for Steel Testing in Steel Industry Plants

Enhance steel testing with our Spectrometers. Ensure accurate & precise analysis of Carbon, Nitrogen, Oxygen & fine wire, foil, thin analysis in

Sep 13, 2025

Industrial spectrometer, Spectrometer for industrial applications

Find your industrial spectrometer easily amongst the 93 products from the leading brands (Bruker, Thermo Fisher, Hitachi, ...) on DirectIndustry, the industry specialist for your professional purchases.

Dec 12, 2025

Ultra-portable, smartphone-based spectrometer for heavy metal ...

Heavy metals are very toxic and hazardous for human health. Onsite screening of heavy metal contaminated samples along with location-based automation data collection is a tedious job.

Mar 17, 2026

Portable Spectrometer for Metal Analysis

The spectrometer uses an industrial resistive touch screen with excellent backlight performance. The spectrometer instrument can read clearly in strong light or dark

Jun 27, 2025

Portable Metal Analyzer

The SPECTROPORT portable arc spark spectrometer is ideal for many applications in the metal producing, processing, and recycling industries. Find out more.
