

Installation requirements for ADSS optical cables

Overview

This guide provides general recommendations for the selection of methods, equipment, and tools for the stringing of ADSS (All Dielectric Self-supporting) fiber optic cables including short and Long Span ADSS cables. Since there are numerous practices which may be utilized, Prysmian has tested and determined that the practices described herein are effective and efficient. The installation methods for ADSS cables are essentially the same as those used for. This document presents Teldor Cables and Systems' recommendations for installation of its ADSS cables. The reader should be experienced in aerial fiber optic cable. This Installation Manual is a recommendatory installation document provided by HANGZHOU ZION COMMUNICATION CO. Wind speeds should not exceed level 5.
