

Jordan Fiber Optic Cable News

Overview

Major Memorandum of Understanding was signed on Thursday to extend the GreenMed submarine cable system through Jordan. The agreement brings together Italy's Sparkle, Jordan's Naitel (the telecom arm of Aqaba Digital City), and iElephant to build a new international data corridor. The project is. Jordan's telecommunications landscape is experiencing a remarkable transformation, with fiber optic subscriptions reaching 556,350 in the second quarter of 2024, according to the Telecommunications Regulatory Commission (TRC). While traditional fixed voice services experienced a slight decline of 1. 772. Fibertech, a leader in fiber technologies in Jordan, has announced the successful completion of the first test of ultra-high speeds reaching 50Gbps on its fiber optic network. With this, Fibertech becomes the first company in the Kingdom—and one of the first in the region—to own advanced. Based on His Majesty King Abdullah II's vision, "Jordan 2025," which aims to make Jordan a regional gateway in the fields of information and communication technology and e-commerce, and to transform Jordan into an information society equipped with all the capabilities and competencies required to. Italian operator Sparkle has signed a Memorandum of Understanding (MoU) with NaiTel and iLevant to extend its GreenMed subsea cable through Jordan. This move establishes a new Europe-Asia digital connectivity corridor, reinforcing Jordan's strategic position on the India-Middle East-Europe Economic.
