

Kenya Fiber Optic Cable Splicing Project

Overview

The Kenyan government has announced a new World Bank-funded infrastructure project to install a high-capacity fibre optic cable along the Isiolo-Mandera corridor, aiming to boost digital connectivity in northern Kenya and strengthen cross-border links with Ethiopia and Somalia. We are equipped with the latest fusion slicing and testing equipment that guarantees high performance and fast speeds. Our team consists of certified fiber. At Sanctity Technology Ltd, we do solutions for fiber optics Kenya needs to enable robust networks for businesses, homes, and institutions. We use modern technology fusion splicing machines, EXFO OTDR, and Meters to provide. Decko provides a full spectrum of contract services to communications companies from engineering and construction to cable installation and splicing and system support. Decko leads the industry in comprehensive health and safety, and environmental protection practices and in designing and building.
