

Latvia ONT Optical Network Terminal 1G

Overview

The SNR-ONT-1G is comprised of one GPON uplink and Gigabit Ethernet downlink supporting 10/100/1000Base-T (RJ45). It helps service providers to extend their core optical network all the way to their subscribers, eliminating bandwidth bottlenecks in the last mile. GPON technology supports upstream 1. Offering high performance, flexibility and reliability, the SDX 630 Series is built for a wide range of deployment scenarios. HG1 provides 1 GE LAN port high access speed up 2. It is widely compatible with the global mainstream OLT brand, supports plug-and-play, OMCI and TR069 remote maintenance. Discover our selection of GPON, EPON, and XG (S)PON ONT/ONU devices. The Nokia Optical Network Terminal (ONT) G-010G-T is the answer for home networking delivered by Gigabit Passive Optical Network (GPON).
