

Lc fiber optic interface board end

Overview

The Lucent connector, commonly known as the LC connector, is a small form factor type of fiber optic connector used in high-density aerospace applications. Our portfolio includes a connector kit with a 1.25mm. An optical fiber connector is a device used to link optical fibers, facilitating the efficient transmission of light signals. It uses a retaining tab mechanism and the connector body. NG4access[®] Cabled Modules available in all module sizes and fiber counts up to 864 fibers NG4access[®] Splice Tray Four sizes of interchangeable Propel fiber pass-through adapter packs provide the breadth of capabilities for virtually any configuration. Four sizes of interchangeable Propel fiber. LC Fiber Optic Cable Assemblies are available at Mouser Electronics. This guide provides a fully updated and industry-ready overview of LC fiber optics, explaining the origin and design of LC connectors, their key features, and the complete ecosystem of LC-based products used in modern networking.
