

Left Turn Cable Tray

Overview

The Cable Tray Left Reducer is a durable and precisely engineered accessory designed to reduce and direct cable pathways to the left. It ensures seamless cable management for complex electrical installations. Left hand reducers have the width reduction on the left when viewed from the primary width. Eaton's submittal builder tool. ABB designs and manufactures cable tray systems, including perforated tray, cable ladder, channel tray and strut (metal framing), directly from production facilities in Canada and Saudi Arabia. Combining local manufacture and distribution with an extensive product range, these facilities ensure we. ventilation to heat producing cable such as power communication and other with the same or different width of the cable run.
