

Lighting distribution box model PZ30

Overview

The PZ30 lighting distribution box is suitable for single-phase and three-phase circuits with a frequency of 50Hz, rated voltage of 500V or below, and a load current not exceeding 100A. It is used for power and lighting distribution, motor control, and provides overload, leakage, and short-circuit. Enecell is a famous China PZ30 Electric Lighting Power Box Manufacturers and Lighting Distribution Box Suppliers, The PZ30 Lighting Distribution Box offers versatile applications, user-friendly design, and comprehensive protection, making it an ideal choice for modern buildings. Product Overview. PZ30 Series Illumination Distribution. ♦ All external fastening components are constructed from stainless steel, while sealing components are made of silicone rubber, offering resistance to oil, acids, alkalis, high temperatures, and aging. With modern aesthetics, safety-focused construction, and user-friendly features, it meets the needs of diverse applications.
