

Lightweight lightning protection optical cable 6

Overview

This OM3 optical cable is made with a durable UV resistant PE jacket to provide full protection against the outdoor environment and for general applications. The new INSTALITE Lightweight braid (LWB) offers a low cost way to save up to 50% weight over traditional braids. The term lightning protection in connection with lightning protection intermediate plugs is actually wrong. From our own designed and manufactured products, through to risk assessment and systems design advice, Furse offers a ren ified and installed in many prestigious rawings and syst signs to any recognised s ne of nature's most powerful and. Leviton offers optical cable for a wide range of applications, including a full selection of tight-buffered and loose-tube cables. OBO Bettermann is one of the world's most experi-enced manufacturers of lightning and surge protection systems. Our OPGW cables are produced in our state-of-the-art factory in China, adhering to IEC and IEEE standards to ensure optimal.
