

Maldives Energy Internet Project

Overview

Today, we're announcing Dhivaru, a new Trans-Indian Ocean subsea cable system that will connect the Maldives, Christmas Island and Oman. This investment will build on the Australia Connect initiative, furthering the reach, reliability, and resilience of digital connectivity. In 2022, the Maldives was crowned the 'World's Leading Destination', for the third consecutive year, at the World Travel Awards. With a population of around 550,000, the Maldives comprises 185 islands. Famous for its natural beauty, coral and fish life, the archipelago attracts almost 1. The current IFIs combined programmes while of significance and substance may however fell. As we move towards a sustainable future for the Maldives, I am honored to introduce the Maldives Energy Policy and Strategy, a comprehensive approach, that will guide our nation towards a cleaner, greener, and more resilient energy future. It is now also a model for accelerated clean energy transitions across vast and challenging spatial dispersions. As such, the Maldives offers key. The Greater Male Connectivity Project (GMCP) is the largest infrastructure project in the Maldives, consisting of a 6.
