

Manufacturer DFB Distributed Feedback Laser SFP

Overview

Explore 26 top manufacturers and suppliers of Distributed Feedback Lasers in our comprehensive photonics buyers' guide. Understand the Technical Background To support your technical evaluation, this section includes. nanoplus sets the standard for DFB laser technology. They are used for high-performance gas sensing applying tunable diode laser spectroscopy. nanoplus lasers operate reliably in more than. Thorlabs' Distributed Feedback (DFB) Lasers are narrow-linewidth, single-frequency laser diodes that use a corrugated waveguide throughout the active region of the laser cavity (see SFL Guide tab). Covering NIR to LWIR wavelengths (750nm–17μm), these lasers feature integrated DFB gratings and TEC cooling for robust. MACOM's CW DFB laser diodes are designed for uncooled operation up to 85C. These products utilize patented Etched Facet Technology (EFT) for wafer-scale testing and manufacturing. Proven reliability and low FIT based on EFT laser.

Everything You Need to Know About DFB Lasers

A Distributed Feedback (DFB) laser is a type of semiconductor laser that incorporates a periodic grating within or adjacent to the active medium to

Nov 10, 2025

High Power CW Distributed Feedback Lasers (DFB)

We offer 75mW and 100mW 1310nm and O-band FR application lasers. These products utilize patented Etched Facet Technology (EFT) for wafer-scale testing and manufacturing.

Distributed Feedback Lasers (DFB) are a pivotal

Dec 12, 2025

DFB LD (Distributed Feedback Laser Diode) Chips

DFB (Distributed Feedback Laser Diode) chips are a type of laser diode that have a specific pattern of optical feedback built into their structure. This pattern helps to produce a highly collimated, narrow

May 18, 2026

How Distributed Feedback Lasers Shape Modern

Lasers have revolutionized numerous fields by providing a highly controlled source of light with unique properties. Among the diverse types of

Aug 23, 2025

DFB » Distributed Feedback Laser » Laser Diodes » Home | Sacher ...

The front facet of the laser chip is provided with a high quality antireflection coating for avoiding the Fabry Perot modes of the laser chip. Distributed Feedback (DFB) Diode Lasers are available at

Oct 28, 2025

Distributed Feedback Lasers - DFB laser

Distributed feedback lasers are diode or fiber lasers where the whole laser resonator consists of a periodic structure, in which Bragg reflection occurs.

Oct 31, 2025

What are Distributed Feedback (DFB) Lasers?

A Distributed Feedback (DFB) laser is a laser device whose active medium consists of a repeating corrugated structure. The corrugated structure is

Jan 20, 2026

Distributed Feedback Lasers: Working Principle and

A distributed feedback laser (DFB laser) is a type of laser that emits light of a single frequency. This is achieved by incorporating a distributed feedback grating (DFB
