

Mobile has no fiber optic cable

Overview

Rather than fixed fibre-optic cables or a Wi-Fi network, mobile broadband just needs a 4G or 5G signal to deliver your broadband. This can be a great way to stay online whilst on the go, or for those who live somewhere with no access to full fibre. Struggling to get reliable internet without fiber optic access?

This guide offers a comprehensive look at alternative solutions, from satellite and fixed wireless to 5G home internet, detailing their pros, cons, and suitability for your needs. Discover the best options available in 2025-26. DSL and. Telekom is the best internet provider in Germany and has the best DSL coverage. 1&1 and O2 are cheaper alternatives. Telekom. If you don't have (or want) a physical cable connecting your home to the internet, you can still connect with a wireless internet connection. Options like mobile hotspots. Fiber optic internet is known for delivering blazing high-speed connectivity through strands of glass or plastic that transmit data using light.
