

## Monaco SD-WAN device 10G

## Overview

The MX95-HW MX95 Security and SD-WAN Appliance is a cloud-managed powerhouse designed to ensure your network remains secure and efficient. Offering up to 10 Gbps throughput, this device excels in high-demand environments, making it ideal for businesses requiring robust network. rises of all sizes. VeloCloud SD-WAN is built on software-defined networking principles to address end-to-end automation, application continuity, branch transformation, and security from the edge to the data c tributed workforce. VeloCloud SD-WAN and Best-of-Breed SASE integrations, built on the. The QHora-301W supports high-speed Wi-Fi 6 and 10GbE connections, while also providing an enterprise-grade SD-WAN VPN to allow multi-site VPN deployment via the cloud. Protect your users and data Secure users and data with our SASE-ready platform. Choose the network that's right for you. It is designed to support a wide range of deployment needs—from small branch offices to large enterprise hubs—with detailed product specifications, licensing details, and deployment.

Ensure high-speed wired connectivity with 2x 10G SFP+ ports, ideal for robust network performance.

Simplify your network management with clo based platform, providing centralized control and visibility.
