

Mr Lin of the Bridge Structure

Overview

Lin Ming was the chief engineer and general manager for the island and tunnel project of the Hong Kong-Zhuhai-Macao Bridge. Mr Lin was born in 1957 in Xinghua, Jiangsu Province. Its significance is evidenced by UNESCO's studies of the crossing in conjunction with the UN Economic Commissions for Africa and Europe. Tung-Yen (T. In 1978, by dint of sheer effort, he was admitted into the Nanjing Shipping School (later absorbed into Southeast. Bridges are crucial forms of transportation and infrastructure that connect two land masses or help to overcome obstacles such as rivers, canyons, or valleys. Lin, a professor emeritus in civil engineering at the University of California, Berkeley, and a visionary whose pioneering work in prestressed concrete had a profound influence on modern structural design, left this world on Saturday, Nov. 15-2003, at age of 91Yrs, at his El Cerrito home after. A bridge is a structure carrying a roadway, pathway, railway, etc. across a river, or other obstacles.
