

Multi-core optical cable assembly

Overview

This cable assemblies brochure provides features, benefits, and supported fiber and cable types on cable assemblies with MXC optical connector, plus illustration of absolute maximum rates, and a reference guide of part numbers and descriptions. Explore our extensive portfolio of optical cable assemblies, designed to meet a variety of needs with solutions ranging from single-fiber to multi-fiber configurations. Each offering helps optimize performance and simplify installation—allowing system architects to achieve more efficient fiber routing and repeatability. Our cable assemblies for MXC fiber optic connectors exceed the need for faster speed and higher density for next generation communications systems. Each Wirewerks pre-terminated multi-fiber cable assembly is precision built to your exact mechanical and optical specifications, and then fully tested, documented, labelled and shipped for immediate use of each custom assembly. Our customer service experts are available to.

- PVC or LSZH jacket protects fibers from water,
- High-density 12-144 core breakout fiber optic cable assembly for FTTH and telecom networks.
- Supports 8-core Multi-fiber Breakout Cable Assemblies offer.
