

Optical fiber PBO cable

Overview

The PBO range is designed for aerial distribution applications and can connect up to 12 customer cables/drops, 1 distribution cable (mid-span) and 2 secondary distribution cables. Its organizer is compatible with both G. 657 fibres, loose tubes and micromodules. It can be equipped with. Telenco is making available to telecoms operators and their subcontractors a new version of its Eline® Outdoor PBO: the Optical Connection Point that enables 12 subscribers to be connected quickly and securely to very high-speed networks. In addition to traditional molded and gland sealed assemblies, we also provide an innovative type of cable assembly. Fortune Cat® Poly-p-phenylene benzobisoxazole (PBO) fiber production base mainly produce PBO fiber filament, chopped PBO fiber, PBO short fiber, PBO fiber cloth, PBO pulp, and PBO finished products. The high-end PBO fiber products produced by Fortune Cat® have a strength of 5. Applied Fiber maximizes the strength of PBO cable through its termination or end fitting technology and its assembly manufacturing capabilities. PBO cable is most notably known for exceptionally high modulus, strength, and.
