

Outdoor cable trays and troughs

Overview

Our engineer's guide helps you choose the right outdoor cable tray based on environment, load, and corrosion resistance. Select HDG, Aluminum, or FRP with confidence. Without a specific cable management system in place, cables and utilities laid on the surface often bring increased danger associated with high-level work, poor aesthetics, trip hazards, leakage risks and other structural requirements. Cable troughs are convenient systems for providing safe, secure. Cable tray systems are engineered support structures designed to route, support, and protect insulated electrical cables used for power distribution, control, instrumentation, and communication. Cut through the guesswork with a systematic guide that aligns. Medium Duty Cable Tray Couplers Wrap over design - fits to the ends of Medium Duty Cable Tray For Joining 2 lengths of cable tray on a straight run Pre Galv Steel - British Standard Specification. Use Cable Tray Nut / Bolt for Fixing to Tray (PNB612) Compatible with Brands such as : Unstrut |. Armorduct Systems are a UK manufacturer of steel cable management systems including cable trunking, tray, basket, floor boxes, power track & more. Wide range standard cable management products & bespoke CMS solutions designed and manufactured in house. Constructed from high-quality welded steel wire, Cablofil® Wire Mesh Cable Tray is the result of decades of research and over 94,000 miles of installed tray across the globe.
