

Paraguay Trough-type Long-span Bridge

Overview

It will be the only large-span bridge in the capital, and the first to link it with the Western Region. Its name is a tribute to the combatants of the Chaco War and was selected through a citizen. The Héroes del Chaco Bridge (Spanish: Puente Héroes del Chaco) is a cable-stayed bridge in Paraguay that connects the city of Asunción and Nueva Asunción. It was built to help decongest the Remanso. The 36 pairs of forestays have a semi-fan arrangement and support the bridge's main span, which is made up of two 20m-long initial segments plus 34 x 11.9m-long steel segments consisting of 2. The completion of the Ponte da Integração Brasil-Paraguai, true for the region that has been 40 years in the making. The long-awaited making it the longest in Latin America. Wherever you see a Bridgemeister ID number click it to isolate the bridge on its own page. Facebook - Puente Colgante de Capitán Meza.
